**ORGANIC ALOE BARBADENSIS LEAF JUICE** (Aloe Vera Leaf Juice) is the juice from the leaves of the aloe vera plant, which makes the base ingredient for the Organics line of products. Aloe Vera has been used by people for centuries due to its natural lubricating and healing properties.

**ORGANIC AGAR AGAR** (from Red Algae) is a naturally occurring plant matter, used to create the body and thickness of the lubricant.

**NATURAL TOCOPHEROLS** (Vitamin E) is natural skin moisturizer and powerful antioxidant.

**ORGANIC GUAR GUM** is a non toxic and natural additive that enables the plant cellulose fiber to move and feel incredibly slippery, while stabilizing the formula.

**ORGANIC HIBISCUS & FLAX** are added as restorative and healing emollients, restoring elasticity to the skin.

**ORGANIC GREEN TEA** is an anti-inflammatory.

**ORGANIC SUNFLOWER SEED** is used as a cleansing and calming tonic.

**CITRIC ACID** (Citrus Fruits) is used as a natural antiseptic, pH buffer & preservative. It is combined with the smallest amount of **Potassium Sorbate**, which is a natural preservative that also works as an antifungal. The combination of these keeps unwanted bacteria and mold away, and extends shelf life, making this a safer product for women.
